Aeros Campus 2026

Aeros & Campus by Matthew Hilton

case

Designed by acclaimed British designer Matthew Hilton, the new Campus outdoor range strikes a perfect balance between enduring comfort, sleek aesthetics, and long-lasting durability. At the heart of each piece is a robust, powder-coated steel frame, expertly constructed to provide a solid, weighty feel and a reassuring sense of stability and permanence. The finish not only enhances the visual appeal with its clean, matte look but also adds an important layer of protection against rust and corrosion, ensuring the frame remains resilient and attractive even in challenging weather conditions.

Design Without Compromise

“Good design must fulfil its **function**, be **well constructed** and show this in its **allure**.”

Robin Day
