

With the In Situ Modular Sofa, we wanted to combine the functions of modularity with the beauty of simple, elegant lines and a deep comfort. We sketched a profile that runs along the seat and back of the sofa to subtly hide the visual elements of modularity, giving it a unique character while bringing the individual modules together for a complete appearance. This is paired with grand, sculptural lines and the inherent comfort of its soft seat. — Anderssen & Voll

## A MODERN SOFA FOR ANY SPACE

The In Situ Modular Sofa is a configurable design that combines the grandeur of traditional Italian sofas with the refined simplicity of Scandinavian design and a deep, inviting seat, making it the heart of any space.

Echoing the ideas of Scandinavian craftsmanship, the In Situ Modular Sofa features subtle detailing through its sculptural lines and refined stitching.

Through its elegant yet modern sentiment, the In Situ Modular Sofa brings a new perspective to the archetypal Scandinavian sofa. With its refined steel profile that brings the design together, In Situ features the possibilities of modularity yet without the visual traits of it.

The grand, sculptural lines of the design make for an at once characterful yet timeless expression.

Use the In Situ Cushions for the design for added comfort and a refined, lounging expression.

## SCULPTED COMFORT

The name of In Situ refers to site-specific sculptures that have been created in the place in which they are to be shown.

As with the sculpture, you can create your own In Situ Modular Sofa to the exact aesthetic and functional needs of your home.
